## Renewable Energy in the service of Mankind

### Mission Statement

Renewable energy is growing fast – providing jobs for 6 million people globally and triggering annual investment of 250 billion Dollars world-wide. Renewables can drastically reduce dependence on energy imports and provide rapidly increasing contributions to urgently needed electricity demand globally. Renewables are the cornerstones and the foundation of a truly sustainable energy future. Our mission is to promote enabling policies and to further develop a broad range of renewable energy technologies and applications in all sectors – for heating and cooling, agricultural applications, water desalination, industrial applications and for the transport sectors leading to A BETTER, CLEANER AND SAFER WORLD

### Topics include

1. Photovoltaic Technology
2. Solar Thermal Applications
3. Sustainable & Low Energy Architecture  
(Making buildings work with renewables)
4. Biomass & Waste-to-energy
5. Policy, Finance, Education & Sustainability
6. Energy Meteorology
7. Wind & Hybrid Energy
8. Water & Hydropower
9. Ocean Energy
